

Aluminum Electrolytic Capacitors from Jianghai

JIANGHAI EUROPE GmbH is the European sales organization of Nantong Jianghai Capacitor Co., Ltd., Nantong (China) since 2004. Sales, marketing, technical support, customer service team and warehouse of JIANGHAI EUROPE GmbH are located in Krefeld (Germany).

Jianghai has grown since its foundation in 1958 to become the largest Chinese manufacturer of aluminum electrolytic capacitors today. In 2010, about 1500 employees produced more than 3,5 billion pieces of electrolytic capacitors generating revenues of 200 million USD. While Jianghai started in the beginning with the production of specialty chemicals (e.g., electrolyte solutions), it entered the production of aluminum electrolytic capacitors already in 1970. More recently Jianghai extended its production range by integrating high and low voltage anode foil etching and forming facilities. All factories are located in mainland China: the most important are in Nantong (north of Shanghai) and in the Inner Mongolia. Jianghai is prepared for further expansion due to the entrance in the stock market in summer 2010.

Jianghai's product range comprises aluminum electrolytic capacitors in screw terminal, snap-in and radial leaded styles. The portfolio is complemented by a range of polymer capacitors available in both leaded and SMT.

Global presence of experienced sales and technical marketing experts at offices in Europe, Asia and the Americas ensure the local support of our customers based on sound know-how in all project phases.

Jianghai focuses on the demanding professional industrial segment, providing reliable solutions for many power electronics applications which were developed in close cooperation with our customers.

Research & development in collaboration with several specialized university institutes as well as access to all vital pre-materials enable Jianghai to create engineered, customized solutions to fit smoothly into a specific application.

Jianghai is continuously improving processes, thereby enhancing the quality of its products and services. The list of certificates awarded to Jianghai reflects its level of achievement: ISO9001 (2001), ISO14001 (2003) for the protection of environment, QS9000 (2001), RoHS, WEEE and REACH (2010). On short-term we expect to become certified according to ISO 18001 for protection of health and safety of our employees and ISO-TS 16949 for automotive applications.
